

Dear Sinclair Broadcasting Group, Inc.

I am concerned that you as a Broadcasting Company plan to air an anti-Kerry documentary close to election time. Public airwaves are free of charge and are obligated to serve the public. We have seen enough bad ads and publicity regarding both candidates. I am more interested in democracy and a fair election. Voters need to hear more of the issues that they are concerned with.

If you force stations to air the anti-Kerry documentary then it would be an example of media consolidation.
